COLLABORATIVE

Elevate Professional Growth

Folio is a leadership collaborative for educators. We help our members drive change by making professional growth a strategic priority. Proudly designed by independent school leaders and teachers, Folio traces its roots to the McDonogh School in Baltimore, Maryland.

Folio Collaborative combines three essentials for professional growth: tools, training and community. Every Folio member gets access to myFolio for managing their professional growth program, a community of like-minded educators for collaboration, and customized training rooted in research and events developed by Folio subject matter experts.

Our Mission

We help school leaders drive change by elevating teachers and teaching. The best way for school leaders to start driving change is by prioritizing growth. **When teachers grow, kids grow too — and schools flourish.** Our members believe professional growth should be an overriding strategic priority for every school, everywhere.

Our Principles

- ◆ Purpose driven
- ◆ Groups change the world
- ◆ Reflection isn't a luxury
- ◆ Conversation is core

Folio is a 501(c)(3) not-for-profit. Over 150 prominent independent and public schools have already joined the Collaborative to make professional growth a priority.

Our Technology

The best technology gets out of the way. myFolio is a simple online platform that helps teachers and leaders work together to map out their growth goals, stick to the plan, and eliminate the busy work that always seems to take valuable time away from real professional growth.

Experienced teachers and leaders led the development of myFolio, so it has everything educators need, and nothing they don't.
